DETAILS ON TEKNATOOL WARRANTY, RETURNS AND REFUNDS

Warranty Policy

Here at Teknatool, we take pride in our products and want to do everything we can for you to make your purchase live up to your expectations. If you have any questions about your products performance, or if you have a problem, please contact the reseller that you purchased the product from, or us directly on service@teknatool.com

In some cases our distributors & resellers would carry out local service, warranty and replacement requirements, so in the first instance of failure or fault, please contact your original place of purchase. If you are having any difficulties with this, please contact Teknatool International directly.

All products manufactured by Teknatool carry a full repair and component replacement warranty, which ranges from 1 year to 5 years from date of purchase, see your individual product manual, website or reseller for the warranty for your specific product. NOTE: Motors and products not manufactured by Teknatool International carry their own manufacturer's warranty.

It is our policy that unless otherwise arranged, it is the responsibility of the customer to return (or cover any costs incurred for return) for getting the faulty Teknatool Product to the place of repair. Teknatool will cover costs to return repaired item or replacement to customer.

Depending on circumstances of fault, goods will either be repaired & returned, replaced or purchase price refunded. If items are replaced, it is standard Teknatool policy to charge customer for the replacement item initially (but not to

request payment) and then to cancel that charge when the faulty goods are received back to Teknatool or it's warehouses. This is to encourage the return of faulty goods for our quality assessments to ensure continuous improvements.

Note that Teknatool resellers may also have additional warranty policies.

Our Returns Policy – 30 days money back guarantee

Within 30 days of invoice, you may return any of the product you purchased from Teknatool, for any reason, for a full refund of the product purchase price (we'll also refund the original shipping cost if the return is due to a result of our error - however if you simply change your mind about a product, we can't refund the cost of the shipping)

We cannot accept returns of items returned more than 30 days after delivery (unless items is faulty, in which case it will be covered under our separate warranty policy)

Note that individual resellers may also have additional return policies.

Our Refunds Policy

We can process refunds or credit for items only purchased from Teknatool International. We do not generally issue refunds or credits for:

- Any item that is returned more than 30 days after date of invoice (other than for items faulty under warranty, for these, see our [warranty policy](#))
- Any item that is not in its original condition, is damaged, or is missing parts. If we receive a product for refund/credit that is not in original condition, we reserve the right to deduct costs to return the item to it's original condition/saleable state, if applicable.
- Items that are not sold by Teknatool International.
- Items that were sold from Teknatool International resellers (other than for items faulty under warranty, for these, see our [warranty policy](#)) This is because the original transaction was between the reseller and customer – Teknatool does not have any record of this transaction so has nothing to apply a refund/credit to. In this instance, see your reseller for refund – the reseller will apply to us for reimbursement once they then return the item to Teknatool.

We'll notify you via e-mail of your refund once we've received and processed the returned item. You can expect a refund in the same form of payment originally used for purchase within 7 to 14 business days of our receiving your return. If you require a credit to be held on your account to be used against future purchases, please note this on the form (resellers will automatically receive a credit note) If your return is not due to our error, we will deduct the original shipping costs from your refund.

For more details on our warranty and returns policy, see our website or contact us.
