Frequently Asked Questions

WHERE CAN I FIND THE NUMBER ON MY NOVA JAW BODY?

Date Raised: 30 March 2007

Safe practises should always be employed to ensure the Health and Safety of yourself, employees and customers (if applicable) Refer to product manuals, exploded drawings and our website if further assistance is required, or contact us on service@teknatool.com

Date Amended:

Question: Where can I find the number on my NOVA jaw body?

We changed our jaw numbering system from hand stamped numbers to machine stamped dots.

If you turn the jaw body around, you will find there are dots on the tongue of the underside of the jaw. One dot equals number one slide and etc.

This may not be sufficiently covered by our manual, we apologise for any confusion. We will check our manual and information to make sure it is covered adequately.
