

NOVA INFINITY

QUICK CHANGE SYSTEM

Traditional NOVA Jaws

Uses fastenings to fix.
Approx. 6mins per change over.

With the Infinity Retrofit Kit (SKU 8200) you can transform the entire line of existing NOVA Jaws into Infinity Quick Change Jaws.

NOVA Infinity Jaws

No fastenings to lose.
Quick Change approx. 30secs & under

Simply and Quickly upgrade your current NOVA Chuck (G3 or SuperNOVA2) to the Infinity Quick Change Technology with the Infinity Upgrade Kit (SKU 8100). Just swap your current slides with the Infinity Slides.

NOVA G3

Ideal for lathes with swing between 14" and 16". Great geared chuck for smaller lathes. Takes all NOVA accessory jaws.

SUPERNOVA 2

Ideal for lathes up to 20" swing. Brilliant all-around geared chuck for a majority of users. Takes all NOVA accessory jaws.

NOVA design thinking - seamless accessory jaws means you can design your project from the ground up. With no fastenings, you don't need to work around a jaw design - NOVA is the first chuck manufacturer to turn the process on its head and put turners in the drivers seat with their project design.

*Additional Jaws available 2015

Benefit from the Quick Change Technology while keeping your existing NOVA Chuck (SuperNOVA2 or G3).
