Smart Tools, Powerful Solutions

\$200 REBATE ON PURCHASES OF THE VOYAGER DVR DRILL PRESS

The number one selling drill press in its category is now on rebate for a limited time. NOVA has launched a \$200.00 rebate program for the NOVA Voyager DVR Drill Press 58000.

“We hope this rebate will enable even more customers to purchase this very popular drill press and discover for themselves why it’s consistently 5 star rated. We wanted to give something back to our customers before we are forced to increase our prices due to the imposed tariffs. This is likely to be the cheapest this unit will ever be” says Senior VP of Sales, Craig Walls.

From August 1st through to September 30th 2018, all US customers purchasing the Voyager can claim a generous \$200.00 rebate.

This nationwide offer is available through all full line NOVA dealers, online and in-store, and wherever the Voyager is sold. This offer does not apply to SKU 58005.

Visit www.teknatool.com/rebate to submit your rebate claim and to read terms and conditions.
