

NOVA™ VOYAGER DVR 18" DRILL PRESS

The NOVA Voyager DVR 18" Drill Press is NOVA's top of the line, revolutionary drill press.

The Voyager features simplified menus, larger icons, built in LEDs and many custom features. Our DVR (digital variable reluctance) technology brings unprecedented functionality and power, efficiency and unrivaled torque and smoothness - capable of drilling wood, metals, plastics and glass.

(*Metals, plastics and glass may require a specialty table.)

FEATURES

- Powerful 1.75HP/110V or 2HP/220V for high, consistent torque
- Smart, energy efficient Digital Variable Reluctance (DVR) motor with no belts or pulleys
- Direct drive power, with intelligent speed selection
- Electronic 50-5500 rpm variable speed
- Electronic depth stop with auto-reverse
- Easy to read/use LED display
- Self starting
- Vibration sensing electronic braking
- Industry leading 6" spindle travel
- Warranty: 5 years on all parts & 2 years on motor & electronics

Optional Accessories
(sold separately)

Fence
SKU 9037
