Introducing the NOVA Handy 9-in-1 Spanner (SKU 23115)

A Must-Have Accessory for Every NOVA Lathe Owner

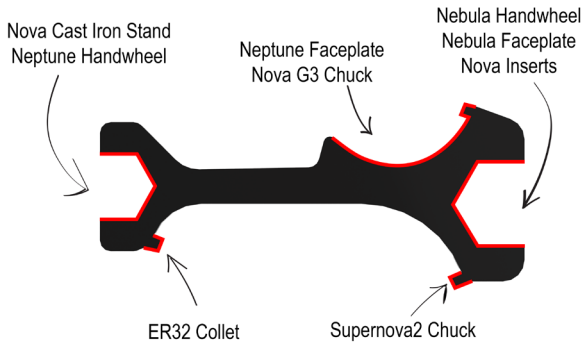
The new NOVA Handy 9-in-1 Spanner is a practical, value-packed maintenance tool that supports a wide range of NOVA lathes and accessories. Designed with both dealers and end users in mind, this upgraded multi-tool improves upon its predecessor with increased durability—at no added cost. Ideal for bundling with lathes, chuck systems, or as a stand-alone accessory, this tool is engineered to meet the everyday needs of woodturners in the workshop.

Key Dealer Benefits:

- **Proven Compatibility** – One tool that supports popular NOVA equipment, including the Nebula, Neptune, FP150, FP80, G3, SN2, and ER32 setups.
- **Easy Upsell or Add-On** – Perfect for bundling with chuck systems or offering as an aftermarket upgrade.
- **Enhanced Durability** – Now 1mm thicker for better performance with no change in wholesale pricing.
- **Improved User Experience** – Customers will appreciate the smooth blackened finish and chamfered edges designed for comfort and safety.
- **Compact, Retail-Ready Format** – Lightweight and small-footprint product that fits easily into displays or ship-with-machine cartons.

Product Highlights:

- Double-ended design for fast tool switching
- 9 built-in functions including:
  - Handwheel removal (Nebula/Neptune)
  - M33 SN2 chuck removal from the spindle
  - Foot bolt and accessory disassembly
- 5mm thick Q235 mild steel with black oxide finish
- 200g weight, optimized for portability
- Price remains unchanged from previous generation



Same Price. More Value.

Take advantage of this upgraded offering with no increase to dealer cost—perfect for stocking ahead of peak turning season.
